

LIFE STARTS QUICKLY IN ANKARA'S NEWEST HOUSING PROJECT, BULVAR LOFT

Within 1.5 months, 200 families moved into the Bulvar Loft project, completed by Akfen Construction with an investment of 556 million Turkish Lira.

Akfen Construction, after Levent Loft, Loft Bahçe, and İncek Loft, completed its fourth project with the Loft concept, Bulvar Loft, with an investment value of 556 million TL, fulfilling its promise on time. Despite 1.5 months passing since the delivery of the apartments, 200 out of 822 apartments have met their owners.

Built on a 37-acre land and costing 556 million TL, the Bulvar Loft project offers a total of 16 different types of apartments, including 1+1, 2+1, 3+1, 4+1, and 5+1, in 6 blocks. The project includes a total of 822 residences with widths ranging from 66 square meters to 350 square meters. Bulvar Loft project allocates 75% of its area to green landscape equipment areas, and in the center, there is a living center with 31 commercial areas on an area of over 10,000 square meters.

IMMEDIATE MOVE-IN OPPORTUNITY FOR READY-TO-LIVE-IN APARTMENTS

In addition to its easy access to transportation and proximity to educational institutions, judiciary campus, and living areas, Bulvar Loft offers apartments ready for occupancy and immediate move-in, with prices ranging from 350,000 to 1,700,000 TL. Akfen Construction carries out sales and rentals in the project under the Loft trademark.

In addition to its social facilities, Bulvar Loft stands out with features such as a fitness center, indoor swimming pool, sunbathing terrace, outdoor chess, basketball, boccia courts, as well as areas that add color to the social life of residents such as hobby rooms, pocket cinemas, skate rinks, sun gardens, and fire pits.
