Basic Human Resources Policy

Our Basic Human Resources Policy is to select, develop, assess and manage human resources according to modern criteria and based on the principle of equal opportunity for everyone by ensuring a combination of job requirements with the skills and competencies of employees.

Human Resources management is responsible for increasing the performance of employees by creating a dynamic and innovative environment that is open to improvement, reducing corporate targets to individual targets and thus supporting the effective and efficient achievement of the targets of the Company.

Our employee profile consists of human resources that are open to change and development, having high motivation for success, believing in team work and team spirit, using their resources and time correctly and also having high sensitivity towards social responsibility.
